

Two further hotels in Croatia receive EuropeSpa certificate

Wiesbaden/Lošinj, December, 1st 2015 | The five-star hotel Bellevue and the four-star Wellness Hotel Aurora are two other hotels belonging to the Lošinj Hotels & Villas group to receive the EuropeSpa hotel spa certificate. In 2014 the Vitality Hotel Punta was the first Croatian hotel that received a EuropeSpa certificate. Based on around 500 different criteria, offers, service quality, atmosphere as well as security and infrastructure in the spa area, where hygiene is especially crucial, are examined.

Hotel Bellevue has 185 rooms and 21 suites and is one of the most luxurious hotels in Croatia. The “Spa Clinic” offers individual treatments in health, beauty and wellness. All treatments have been developed together by medical doctors, nutritionists, therapists and sports scientists and thus guarantee a holistic approach.

Located directly at the beach, Wellness Hotel Aurora has 393 rooms. The two-floor spa area “Laurus Slow Spa” disposes among others of indoor and outdoor pools filled with sea water, several saunas, a fitness and a relaxation room. Only local herbs and herbal products are used for the treatments.

“We are happy to certify two further hotels in Croatia with our EuropeSpa hotel spa certificate. Both hotels and their spa areas have proven their excellent quality and do not have to fear international comparison”, explains EuropeSpa CEO Dr. Kurt von Storch.

PRESS RELEASE

Page 2 of 2

Lošinj island, which is also called the Island of Vitality, is located at the northern Adriatic Sea in the Kvarner Gulf and has a tradition in health tourism of more than 125 years. The reasons for this tradition are above all the soothing climate and more than 1,000 local herbs out of which 230 have healing properties. "Lošinj Hotels & Villas" is a subsidiary of the Jadranka Group and runs six hotels with 3,500 beds on the island of Lošinj.

About EuropeSpa

EuropeSpa is the international quality system for medical spa and wellness providers worldwide. EuropeSpa's purpose is to develop and publish internationally standardised quality criteria, offer certifications based on these criteria, disseminate this know how in courses and seminars worldwide. EuropeSpa developed from an initiative of the European Spas Association (ESPA). Today it is the ESPA's official quality system for medical spa and wellness. The EuropeSpa certificates are the official seals of quality of the European Spas Association (ESPA). They are considered the most sophisticated quality assessments and allow an international comparison with their cross-border standards. EuropeSpa provides technically profound orientation and transparency in the European market for medical spa and wellness. In doing so, EuropeSpa's aim is to stand out against mere marketing or "membership seals", which are often misleading and lacking substance.
