

Dvořák Spa Hotel in Carlsbad receives EuropeSpa med quality certificate

Wiesbaden/Carlsbad, September 30, 2015 | The 4-star Superior Dvořák Spa Hotel in the famous Czech spa town Carlsbad received the international EuropeSpa med quality certificate. Based on more than 1,000 different quality criteria this certificate assesses infrastructure, security, treatments, accommodation, kitchen and service of medical wellness providers. The hotel belongs to the hotel group Vienna International and receives the certificate for the first time.

The modern health and spa area is equipped with different treatment and massage rooms, sauna, steam sauna, indoor pool and gym. The hotel offers among others drinking cures, inhalations, hydrotherapy, electrotherapy, magnotherapy and laser therapy. The “Carlsbad Cure” is used for treating diseases of the digestive system, the liver, the gallbladder and the pancreas as well as for metabolic disorders and obesity. The most important aspect is the internal application of the precious Carlsbad mineral water in the form of drinking cures.

The hotel is situated near the famous drinking colonnades and right at the bank of the river Teplá. It consists of six laboriously renovated buildings in Art Nouveau style. The 126 rooms and suites are equipped with bath, WC, telephone, TV, Wifi, mini bar, safe, hairdryer and air condition. In terms of food guests can choose between traditional Bohemian and international cuisine. Depending on the therapy individual diets are available.

“We are delighted to be able to award the EuropeSpa med quality certificate to Dvořák Spa Hotel, the first Vienna International Hotel, for its outstanding quality. The certificate is awarded at a special moment as the hotel celebrates its 25th anniversary. We congratulate them on the certification and their anniversary”, explains EuropeSpa CEO, Dr. Kurt von Storch.

About EuropeSpa

EuropeSpa is the international quality system for medical spa and wellness providers worldwide. EuropeSpa's purpose is to develop and publish internationally standardised quality criteria, offer certifications based on these criteria, disseminate this know how in courses and seminars worldwide. EuropeSpa developed from an initiative of the European Spas Association (ESPA). Today it is the ESPA's official quality system for medical spa and wellness. The EuropeSpa certificates are the official seals of quality of the European Spas Association (ESPA). They are considered the most sophisticated quality assessments and allow an international comparison with their cross-border standards. EuropeSpa provides technically profound orientation and transparency in the European market for medical spa and wellness. In doing so, EuropeSpa's aim is to stand out against mere marketing or "membership seals", which are often misleading and lacking substance.
