## About EuropeSpa

EuropeSpa is the international quality system for medical spa and wellness providers worldwide. EuropeSpa's purpose is to develop and publish internationally standardised quality criteria, offer certifications based on these criteria, disseminate this know how in courses and seminars worldwide. EuropeSpa developed from an initiative of the European Spas Association (ESPA). Today it is the ESPA's official quality system for medical spa and wellness. The EuropeSpa certificates are the official seals of quality of the European Spas Association (ESPA). They are considered the most sophisticated quality assessments and allow an international comparison with their cross-boarder standards. EuropeSpa provides technically profound orientation and transparency in the European market for medical spa and wellness. In doing so, EuropeSpa's aim is to stand out against mere marketing or "membership seals", which are often misleading and lacking substance.
